How Angels Talk With Us

**Facilitated by
Michael Chester**

This evening we are going to explore how angels communicate with us. The topics include: How angels work with our desires, our memory and the truths we already know. Angels are beings who aren't limited by space and time and physicality, who are extremely loving and wise and are present with us. According to many they are always with us even when we can't see them helping us. They are close to us because they are interested in our aspirations, the passions of our heart, and what we think and say. But how are they helping? What role do they play in our lives and how do they play it.

Tonight we are going to check it out with the help of the video '**How Angels Talk With Us**' hosted by Curtis Childs with special guests Dr Thane Glenn and Chelsea Odhner.

There will be opportunity to share your own insights and ask questions throughout the presentation. The evening will be fascinating and practical so we hope you can join us.

Michael enjoys viewing the videos that Curtis Childs presents on the *offthelefteye* YouTube channel as they present Swedenborg's insights in a very creative and enjoyable way. This one on **How Angels Talk With Us** is very popular and highly rated by him for the excellent coverage of Swedenborg's unique insights about Angels and human psychology, benefiting the listener in many ways.
