***Does the story of  
Adam and Eve  
have value for us  
today?***

The stories in the early chapters of the Book of Genesis have captured the imagination of people over many generations. They have inspired artists but the past 150 years or so have seen them embroiled in much questioning over their relevance in our modern world. They contain inconsistencies and even absurdities given the knowledge that modern science offers. *Can they still speak to us today? As part of the Word of God, do they contain ageless wisdom which has contemporary relevance?*

According to the spiritual writings of Emanuel Swedenborg, within the literal stories lie unexpected unsuspected treasures related to spiritual transformation and rebirth. This evening session will focus on the story of Adam and Eve in the Garden of Eden showing that when interpreted symbolically, the story has profound meaning for our lives today and points to a deeper connection between the physical and spiritual worlds in the future.
