

Symbols of the Subconscious

Aspects of Divinity

Series 17

Minoy Verma was a student of Dr Philip Groves during the late 1980s. During this time, she produced many lovely symbolic drawings.

These symbolic mandala images were given to her in vision during special spiritual states. Minoy passed away several years ago in her home country, India. It gives me great pleasure to put this exhibition and talk on in honouring her life in the great work of the Fourth Way.
