Reading & Exploring a lecture of Dr Philip Groves

presented by Julian Duckworth

PHANTASY AND REALITY

It is both honourable and useful to re-present spiritual talks from the past. I have chosen to do this with the talk of Dr Groves called "Phantasy and Reality" as it struck me that this

particular talk is of enormous value and it also directly involves us personally. For me, this is my dedication to the tremendous work and help from Dr Groves over many years to so many people.

The talk – which is one in the book of talks called "*The Mighty Contribution of Emanuel Swedenborg*" (available from the Swedenborg Centre) – will be read in full as it should be, but as we do this there will be additional comments and time for those there to comment and share on the insights

we are hearing and getting. The presentation will be for roughly one hour and a quarter, followed by refreshments and socialising.
