**SLIDESHOW
FROM SWEDENBORG'S GUIDED BUS TOUR
OF HEAVEN**

presented by Joe Vandermeer

Okay, so the 17th century scientist, spiritual explorer and journalist Emanuel Swedenborg was not driven through heaven on a luxury coach, but let's imagine this is how he was shown around, then let's look at the scenery and explanations he encountered (which are real, taken from his own written accounts). This gives us a fairly interesting preview of this most fascinating spiritual place. Perhaps if we take note, we might even tighten our seatbelt and tweak our natural life so that we can have a packed suitcase ready for the time we get to make the journey ourselves. Meanwhile, come and enjoy this presentation.
