Spiritual Themes in Fiction in Movies and Literature

Presented by Joe Vandermeer
\$7 / \$5 members & concession
(includes refreshments)

You've no doubt read novels (or comic books) heard stories or watched fiction movies that have left a lasting impression on you, or at least made you question important aspects of life. Questions like...

- Is the world a good, friendly place or a bad, evil place?
- Have we lost good things from historical times, or was the past brutal and unforgiving?
- Is the truth easy to find or is it more complicated than it seems?
- Is there another world?
- How would I cope if I was in their situation?
- If I had their superpower would I use to benefit myself or others?

Come to explore these themes with us. Bring your story of how a film, plot, character or an action touched you.

This event is preceded at 6:30pm (same place) by a free reading group. You are welcome to that too.
